## NOD AND SMILE - by Cricket Farm

Nod and Smile is a simple four chord song about best friends. Some people are lucky enough to have a friend they get to know so well that meaningful communications can be established through a simple nod and a smile. It's about the ability to sit and share a comfortable silence with a loved one.

This song was a collaborative effort which was originally started by Hayley and later finished by Sims. In an attempt to make the song longer Sims wrote ten copycat verses with identical melody and it just so happened that one of them was actually worthy. There's some extra notes on top of these chords. If you're playing guitar then we suggest you just waggle your little finger around the high strings until you find them.
